

PORTUGAL

Funded by the European Union \* \* \*

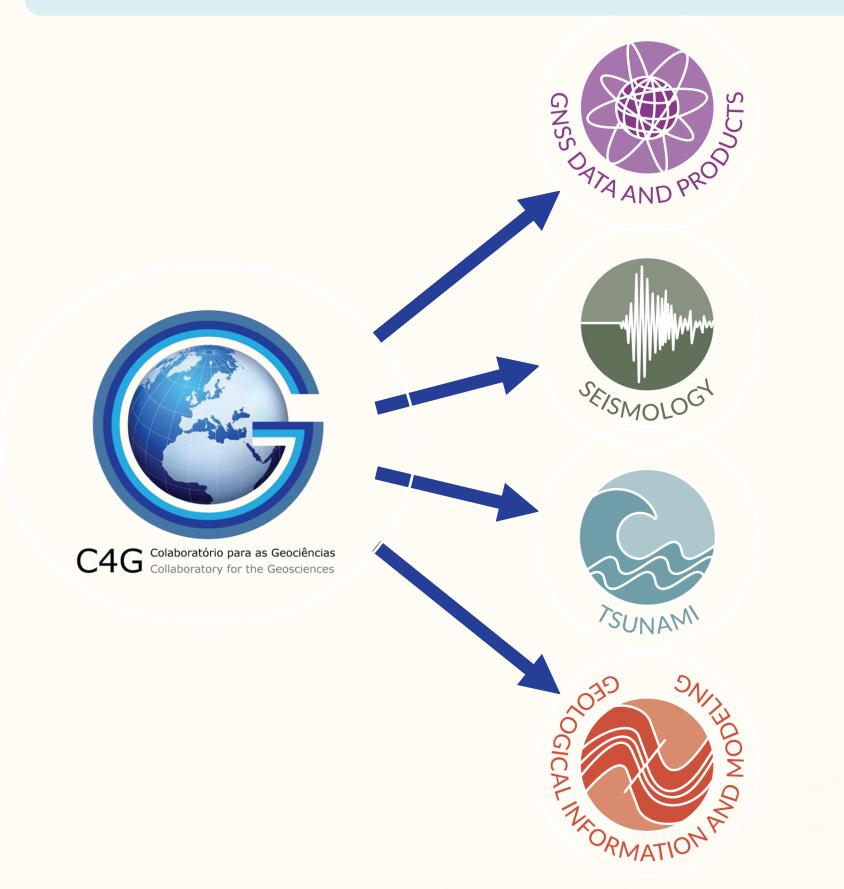

EPOS ON IS FUNDED BY THE EU UNDER HORIZON EUROPE GA N° 101131592

C4G – Collaboratory for Geosciences – is the Portuguese counterpart of EPOS-ERIC.

C4G was one of the 39 approved Research Infrastructures of the Portuguese National Roadmap of Infrastructures of Strategic Interest.

C4G was formalized in 2014, with headquarters in Covilhã (University of Beira Interior), with the first funding period starting in June 2017 (until November 2022).
