

Day 1 – Monday 16 March

12.00-13.30

Arrivals and registrations

13.30-15.00

Welcome lunch

Introducing EPOS

This session is designed to present EPOS to those who are new to the community (e.g. new Early Career Researchers), new communities, and invited partners... But also as an opportunity for those who are already in EPOS to ask questions and learn more.

This session is connected to EPOS ON activities in WP1 and WP6

15.00-15.15 Welcome to the EPOS Days 2026
15.15-15.30 EPOS: the community perspective
15.30-15.45 Question time (interactive)

Thematic Core Services -

In the first part of the session, TCS will give flash talks, highlighting current cross-TCS collaboration; in the second part a Meet & Greet interactive space will allow people to get together to discuss.

This session is connected to EPOS ON activities in WP2 and WP3

15.45-16.45 Flash pitches from the TCS, focussing on TCS news, objectives for the next 12 months, and collaboration opportunities - *Flash presentations*

TCS AH - Anthropogenic Hazards

TCS GEOM - Geomagnetic Observations

TCS GIM - Geological Information and Modelling

TCS GNSS - GNSS Data and Products

TCS MSL - Multi-Scale Laboratories

TCS NFO - Near Fault Observatories

TCS SATD - Satellite Data

TCS SEIS - Seismology

TCS TSU - Tsunami

TCS VO - Volcano Observations

16.45-18.15 Meet & Greet - *Interactive session with drinks and refreshments*
18.15-18.30 Brief reports by rapporteurs

Day 2 – Tuesday 17 March

New services and new communities

This session aims to present new communities to be involved in EPOS and the progress made in collaborating with those who attended last year's edition, discussing lessons learned, roadblocks and possible solutions.

This session is connected to EPOS ON activities in WP2

9.30-09.45 EPOS ON WP2 Achievements during project first period

09.45-10.30 Short presentations from new communities

10.30-10.45 Interactive discussion

10.45-11.30 Coffee break

Societal impact and responsible research infrastructures

This session aims to discuss the status and perspective of EPOS' impact on society, and reflect on the ethical aspects of the EPOS mission and plans, focussing on ethical issues, but also opportunities to offer guidance to the geoscience community on this important topic.

This session is connected to EPOS ON activities in WP3

11.30-11.45 EPOS ON WP3 Achievements during project first period

11.45-12.30 Scientific products exploitable in evidence-based decision making
(e.g., civil protection, private sectors, environment)

12.30-13.00 Integrating the ethical dimension

13.00-13.30 Interactive discussion

13.30-15.00 Lunch break

Early Career Researchers

In this session ECRs present their scientific challenges and works and how the EPOS Platform can support them. It is divided in two parts, the first featuring 4-5-min lightning talks, followed by a poster session where participants will have the chance to ask questions and get details to the poster authors.

This session is connected to EPOS ON activities in WP4

15.00-15.15 EPOS ON WP4 Achievements during project first period

15.15-17.00 Challenges presented by Early Career Researchers - *Flash presentations*

17.00-18.30 Works presented by Early Career Researchers - *Posters & networking*

Day 3 – Wednesday 18 March

International Collaboration

This session focuses on international and global collaboration, with the objective of providing practical points where specific collaborative activities could/should focus.

This session is connected to EPOS ON activities in WP5

09.30-10.00 EPOS ON WP5 Achievements during project first period

10.00-11.00 Presentations by international partners – *Presentations*

11.00-11.45 Coffee Break

11.45-12.15 Presentations by international partners – *Presentations*

12.15-13.30 Panel with international partners and discussion - *Interactive discussion*

13.30-15.00 Lunch break

Free afternoon and social event

Day 4 – Thursday 19 March

Technical challenges, opportunities and solutions

Key objective for this session is to bring some of the technical challenges (choosing from those with broader interest) to the attention of the wider EPOS Community, showcase the work done in the ICS-TCS Interaction context and collect relevant input.

This session is connected to EPOS ON activities in WP2 and WP3

9:30-10:45 Presentations on new developments and technical challenges in ICS-TCS Interaction

10.45-11.30 Coffee break

11.30-12.45 Presentations on new developments and technical challenges in ICS-TCS Interaction

12.45-13.30 Challenges ahead - *interactive discussion*

13.30-15.00 Lunch break

EPOS in the national landscapes

The session is organised around group discussions about common challenges, with selected presentations of success stories, best practices and lessons learned from national implementations of EPOS.

This session is connected to EPOS ON activities in WP4 and WP6

15.00-16.00 Success stories from national experiences

16.00-17.30 Word café with the national clusters - *Interactive session with refreshments*

17.30-18.30 Brief reports by rapporteurs and discussion

Day 5 – Friday 20 March

Introducing the EPOS Data Policy

This session will offer a detailed presentation of the new, improved version of the EPOS Data Policy, and will offer the audience the opportunity to ask questions.

9.30-10.30 Presentation of the EPOS Data Policy

10.30-11.00 Question time - *Interactive session*

11.00-11.45 Coffee break

Conclusions and vision towards the future

This session will summarise the conclusions collected from previous conversations, while offering a vision towards the future and presenting next steps and activities in EPOS ON and in the wider EPOS scenario

This session is connected to EPOS ON activities in all workpackages

11.45-12.00 Conclusions from the EPOS Days

12.00-13.00 Future outlook - *Interactive discussion*

13.00 End of sessions

Service Coordination Committee meeting – Closed Session
