

Plenary 20220622 1200-1315

Keith G Jeffery

3 TOPICS

TOPIC 1: Sustainability of the Portal along different tracks

TOPIC 2: Pilot Operational Testing

TOPIC 3: Future of Data Portal

TOPIC 1: Sustainability of the Portal along different tracks

Some suggested lines of discussion

- - community engagement
- - collaboration
- - data provision
- - financial aspects
- - technical sustainability
- - scaling the infrastructure
- - additional developments for improving portal features
 - - providing useful data from each TCS keeping in mind users that are not part of their own TCS community

TOPIC 2: Pilot Operational Testing

Some suggested lines of discussion

- - lessons learnt
- - what worked well
- - what needs to be improved
- - collection of test cases for identifying the gaps in service/data provision
-

TOPIC 3: Future of Data Portal

Some suggested lines of discussion

- - ICS-D : tools for analysis and modeling
 - - update on current status and immediate plans through Sponsored Research Activities (SRA).
- - Additional features
- - computational features
