

EPOS SP Annual Meeting | 22 - 23 June 2022

Hotel Barcelona Center, Barcelona, Spain

Welcome

EPOS is experiencing the most delicate stage in the lifecycle of a RI
At the end of a long-lasting period of design, preparation and implementation, the infrastructure has to demonstrate to be ready to successfully enter into operation

The transition from Implementation to the Operation cannot be instantaneous

The EPOS SP project has been designed and developed to bridge the implementation and the operation phases of the EPOS RI

Where we are where we are going

The POP, managed through the Strategic Plan 2020-2022, is aimed at:

- testing altogether the different settings (*technical, governance, legal, financial*) developed so far to ensure access to the EPOS Data Portal
- driving EPOS from financial viability to long-term sustainability (***main goal of the EPOS SP project***)

The year 2023 will be dedicated to an overall assessment of the impact and operational capacity of EPOS RI also finalized to discuss the financial support from the Members and new investments

General Information

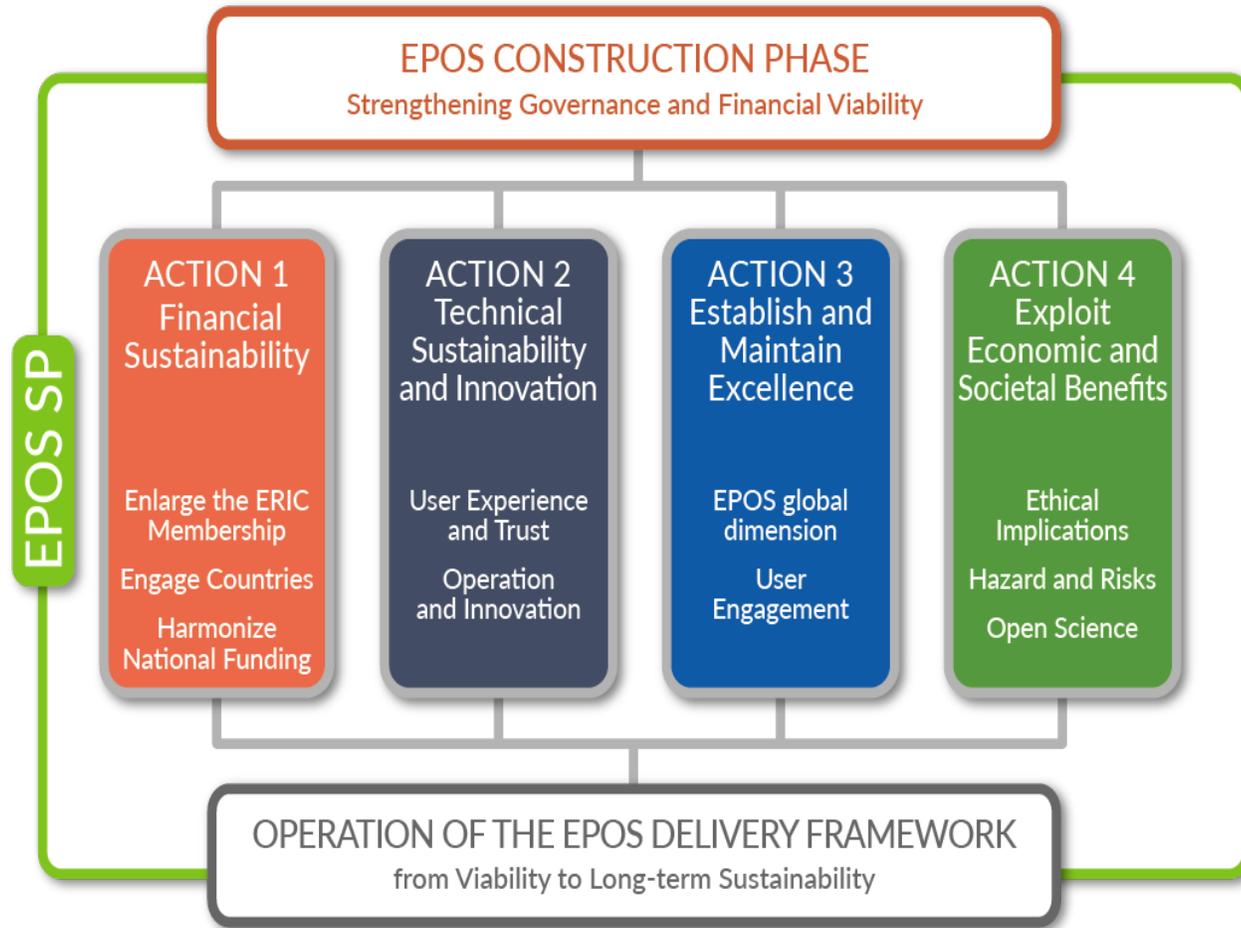

**Horizon 2020 INFRADEV-2019-2 Grant
Agreement 871121**

The overall objective of the **EPOS SP project** is to perform activities aimed at ensuring the **long-term sustainability** of the EPOS RI

| | |
