

EPOS in the ENVRI community

Andreas Petzold, Forschungszentrum Jülich GmbH

IAGOS AISBL Co-coordinator, ENVRI-FAIR Coordinator

Key Features of Environmental Infrastructures

**Interdisciplinarity
highly relevant**

**Specialized observation
and analysis platforms**

**Societal challenges need
multidisciplinary methods**

**High importance to
society, economy and
resilience**

**High level of specialization
requires RI to concentrate on
their main tasks and user
communities**

Life

Air

Answering
societal needs is
only possible via
collaboration

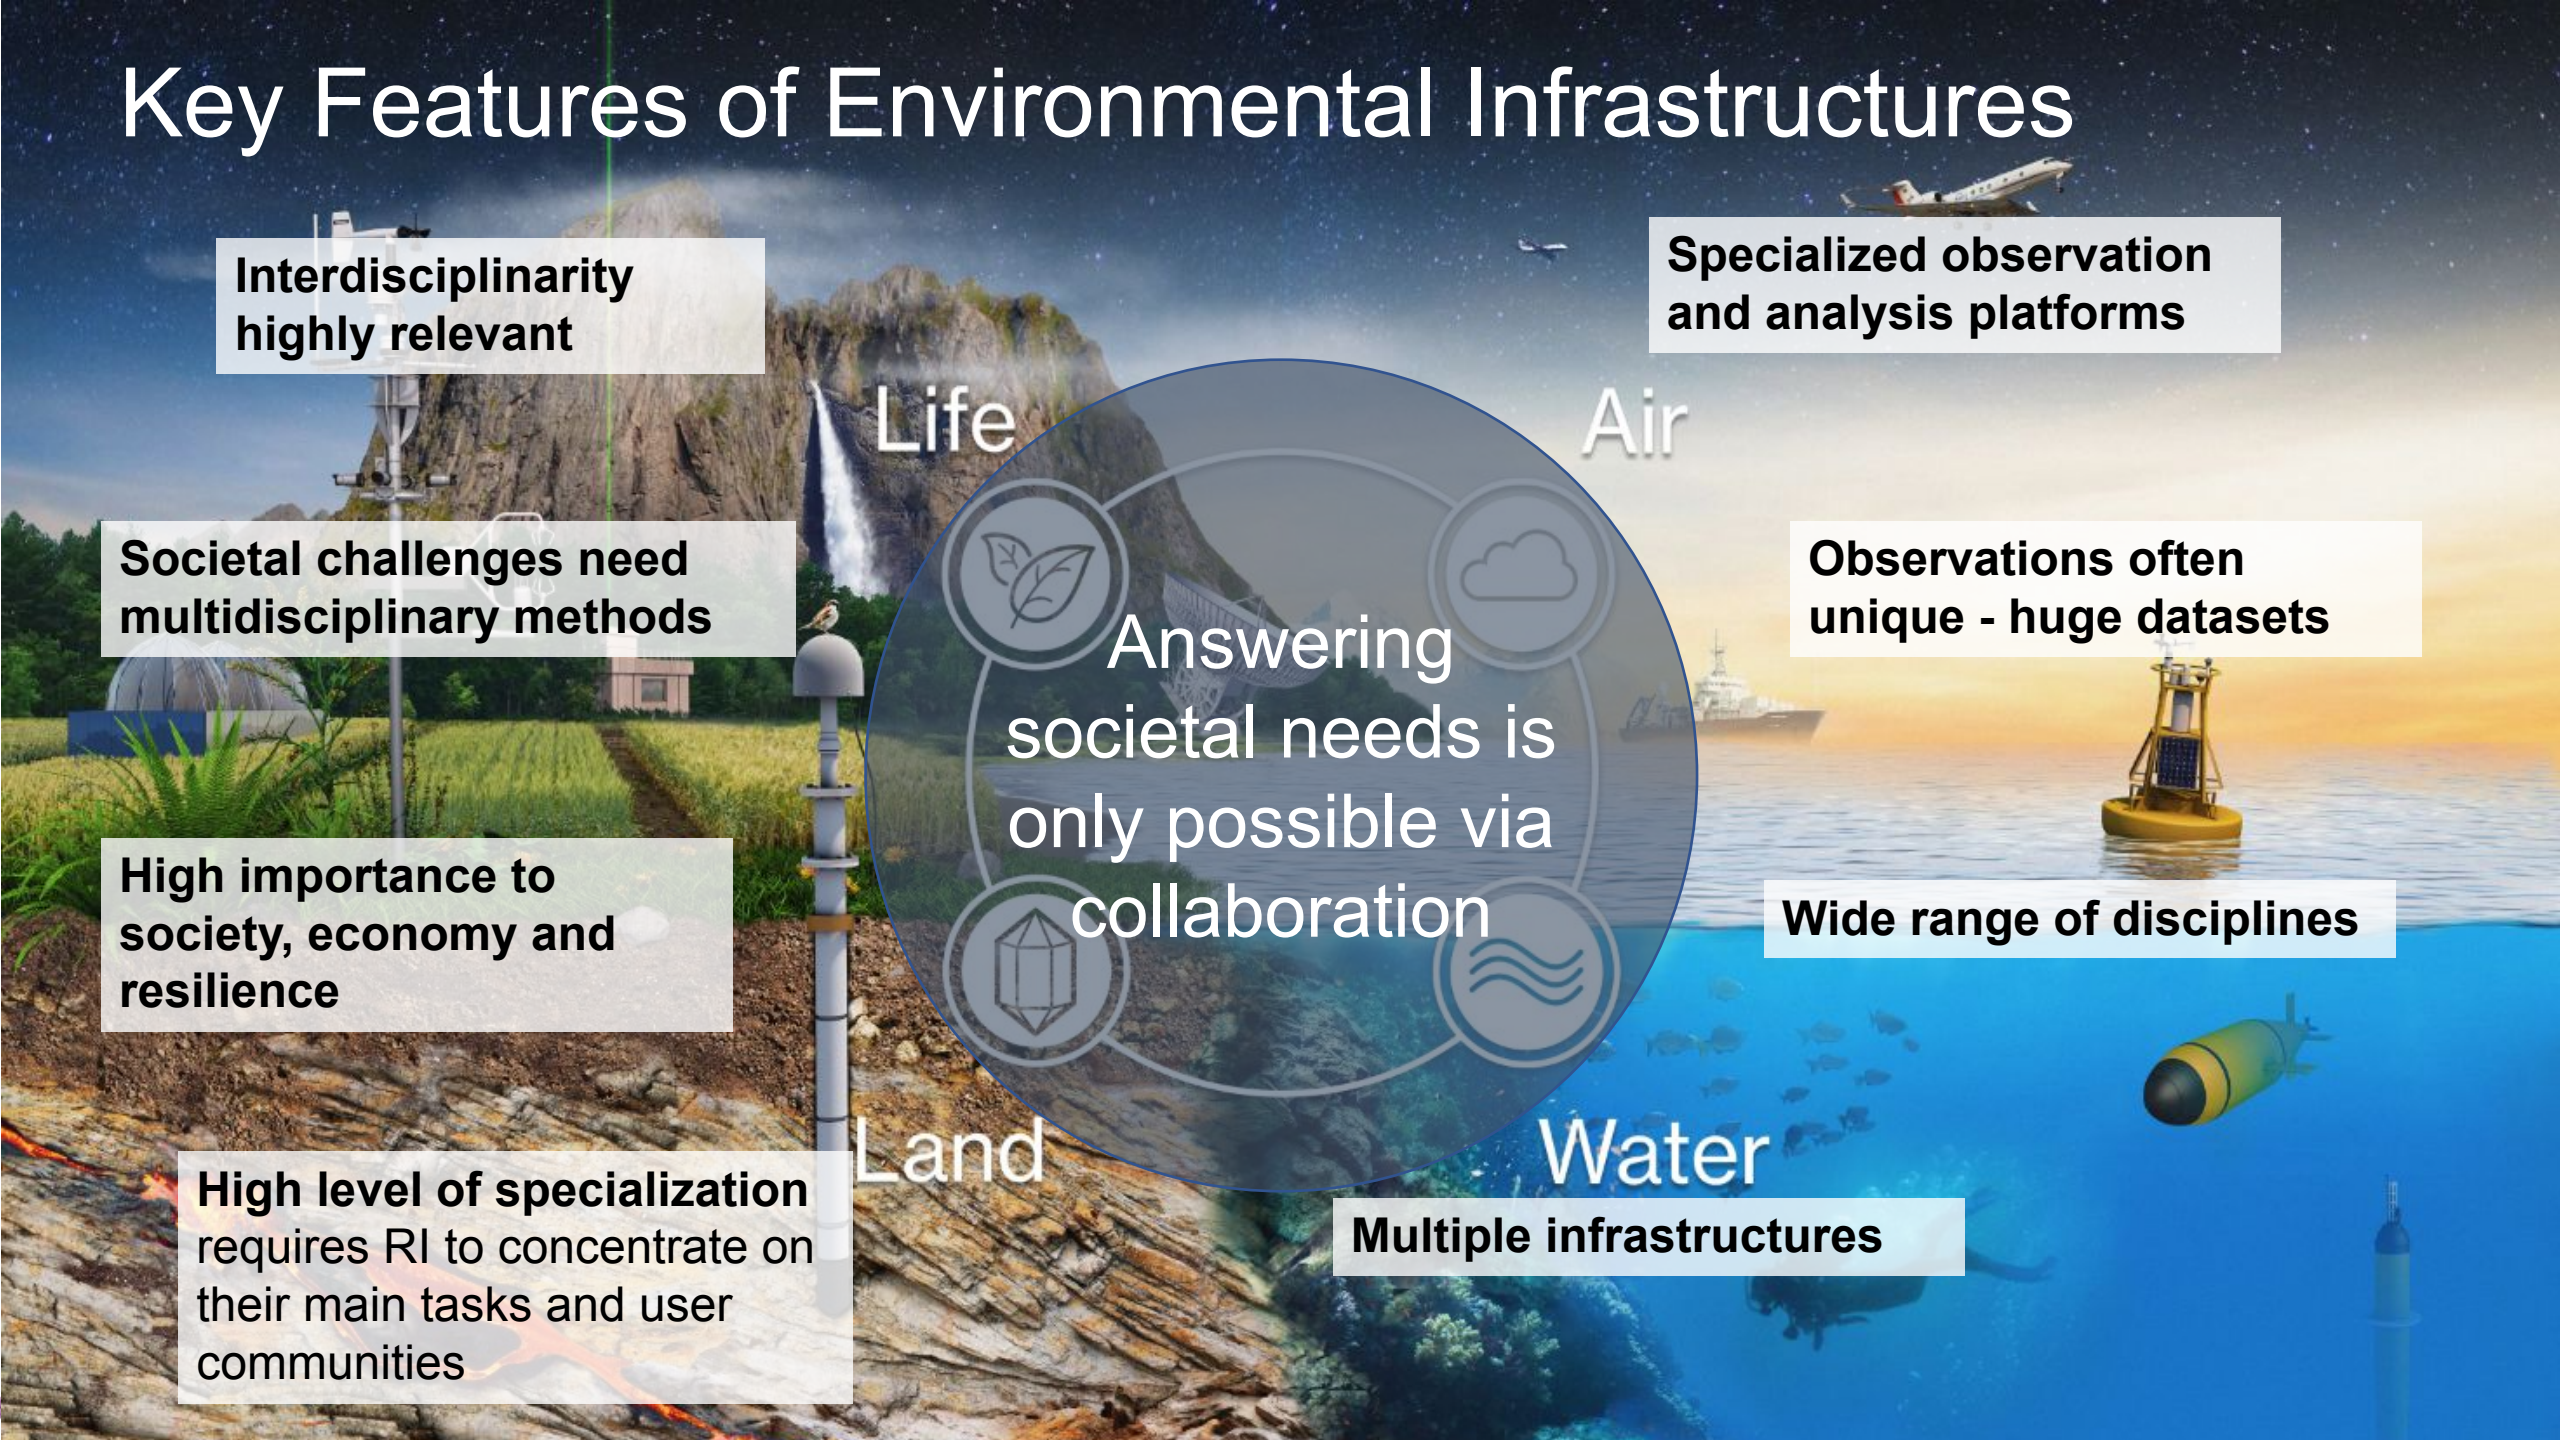

**Observations often
unique - huge datasets**

Wide range of disciplines

Land

Water

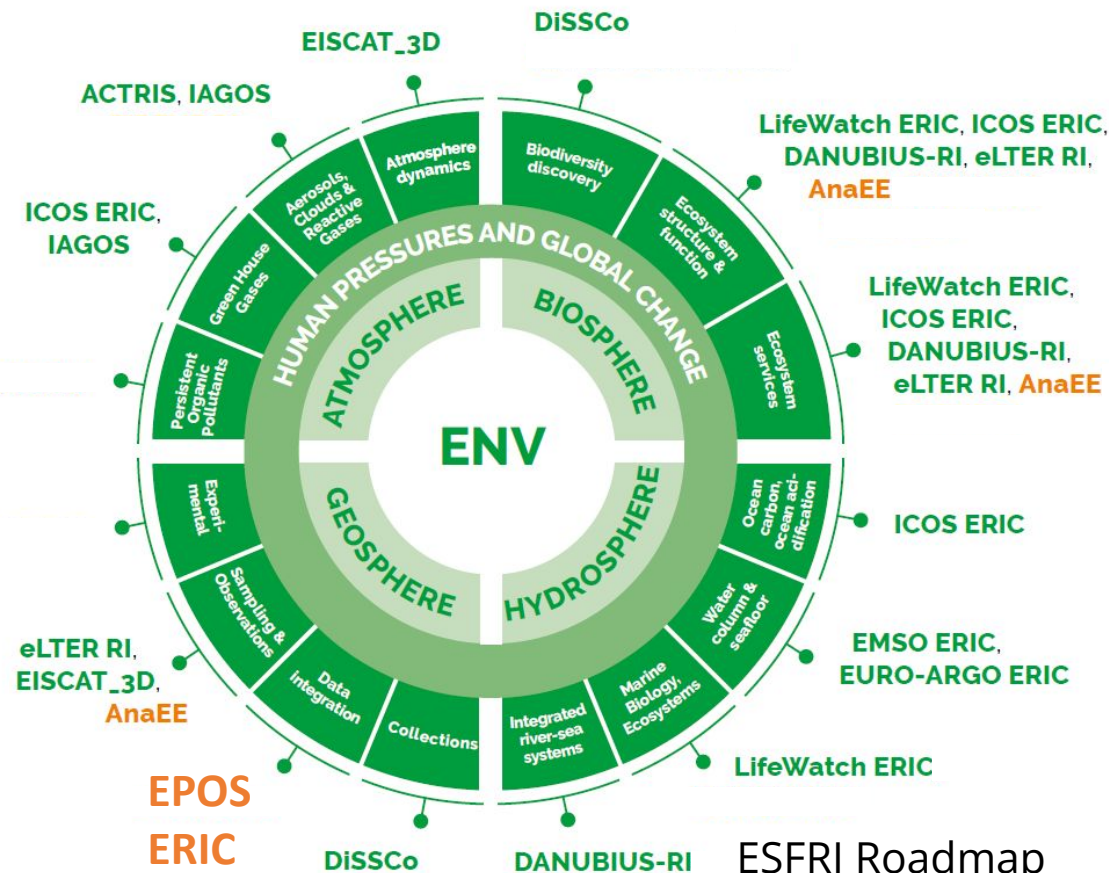

Multiple infrastructures

The ENVRI Community

ENVRI = European ENVironmental Research Infrastructures

Environmental Research Infrastructures

- provide data and research products from all four sub-domains of the Earth system
- data are crucial European contributions to global-scale monitoring of the state of the Earth
- data are vital for assessing past and defining future policies, and for the development of environment-friendly innovations
- provide research data and services at EOSC through the ENVRI-Hub, built by ENVRI-FAIR

ENVRI Community

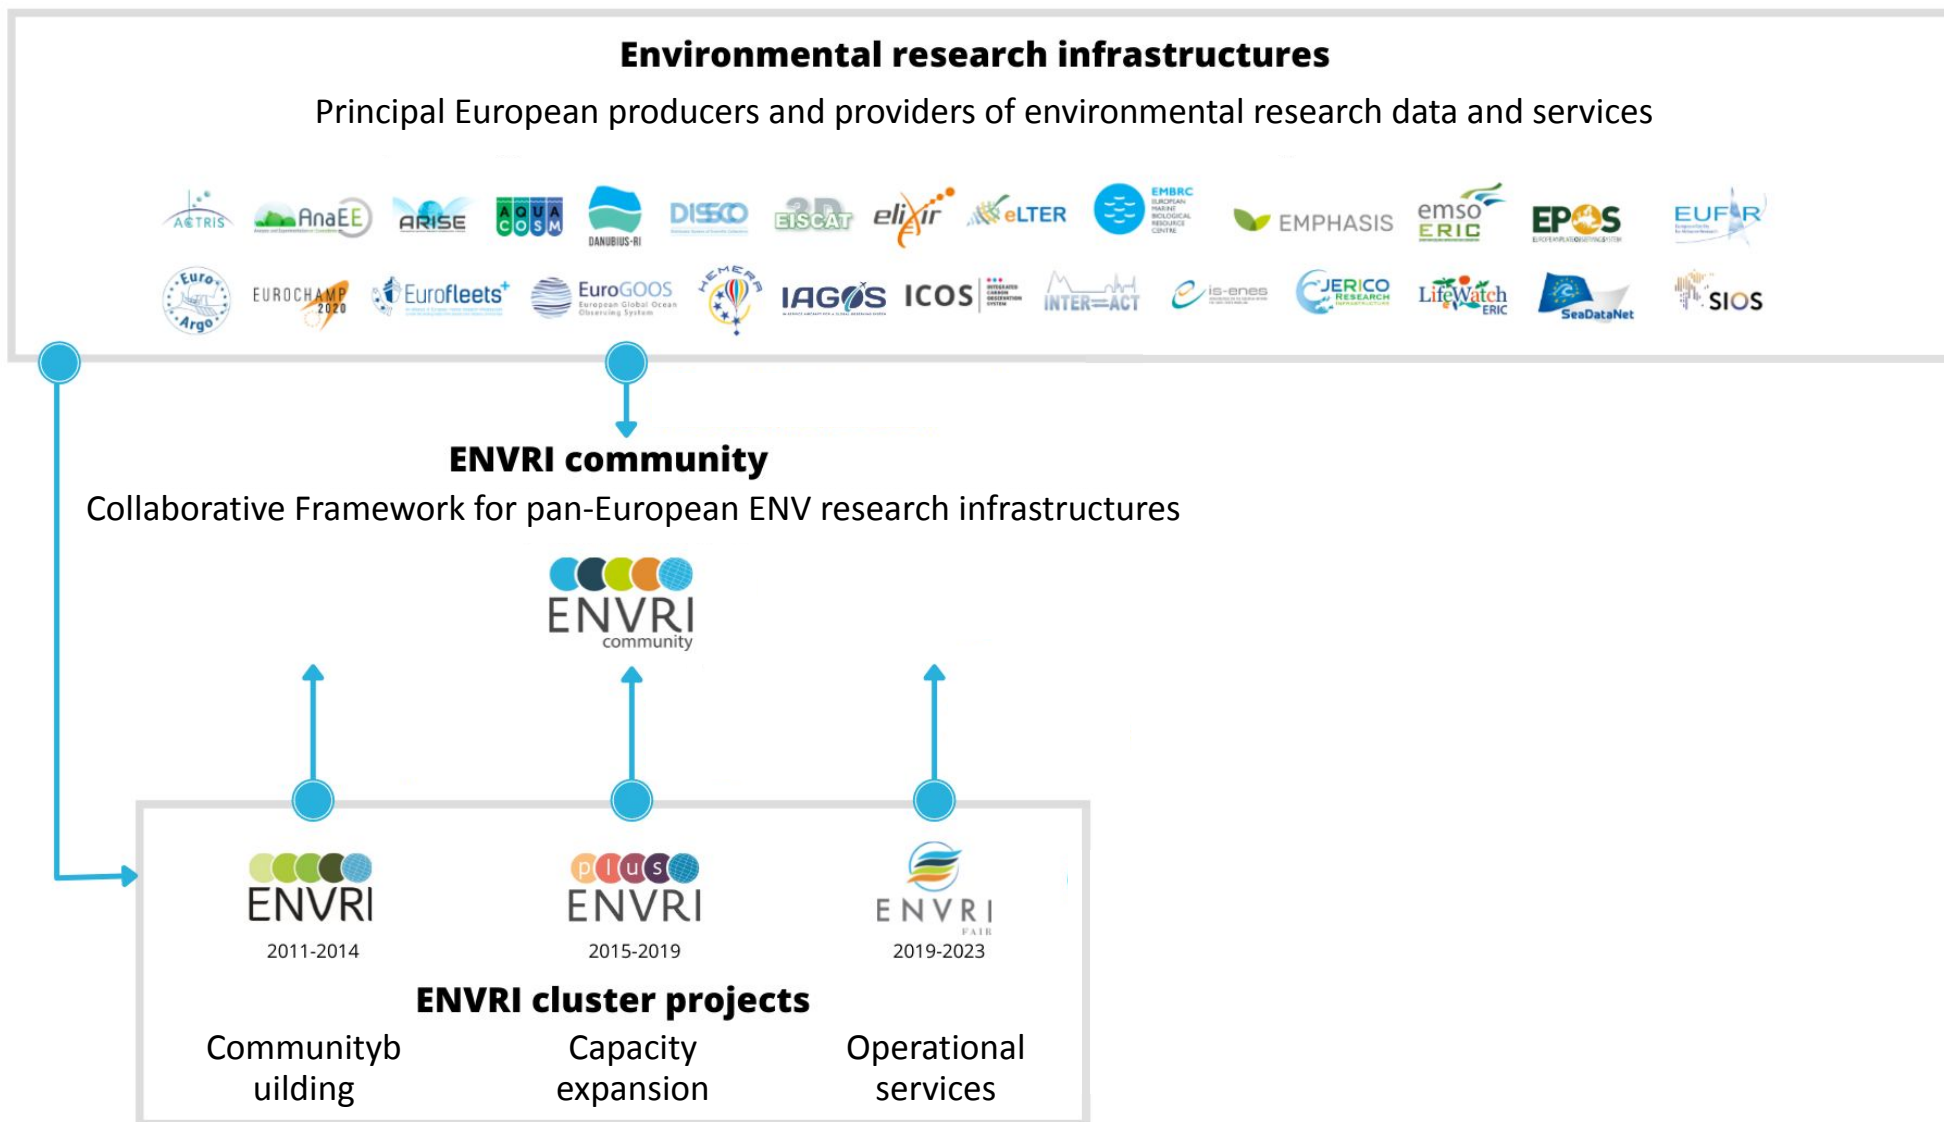

Environmental research infrastructures

Principal European producers and providers of environmental research data and services

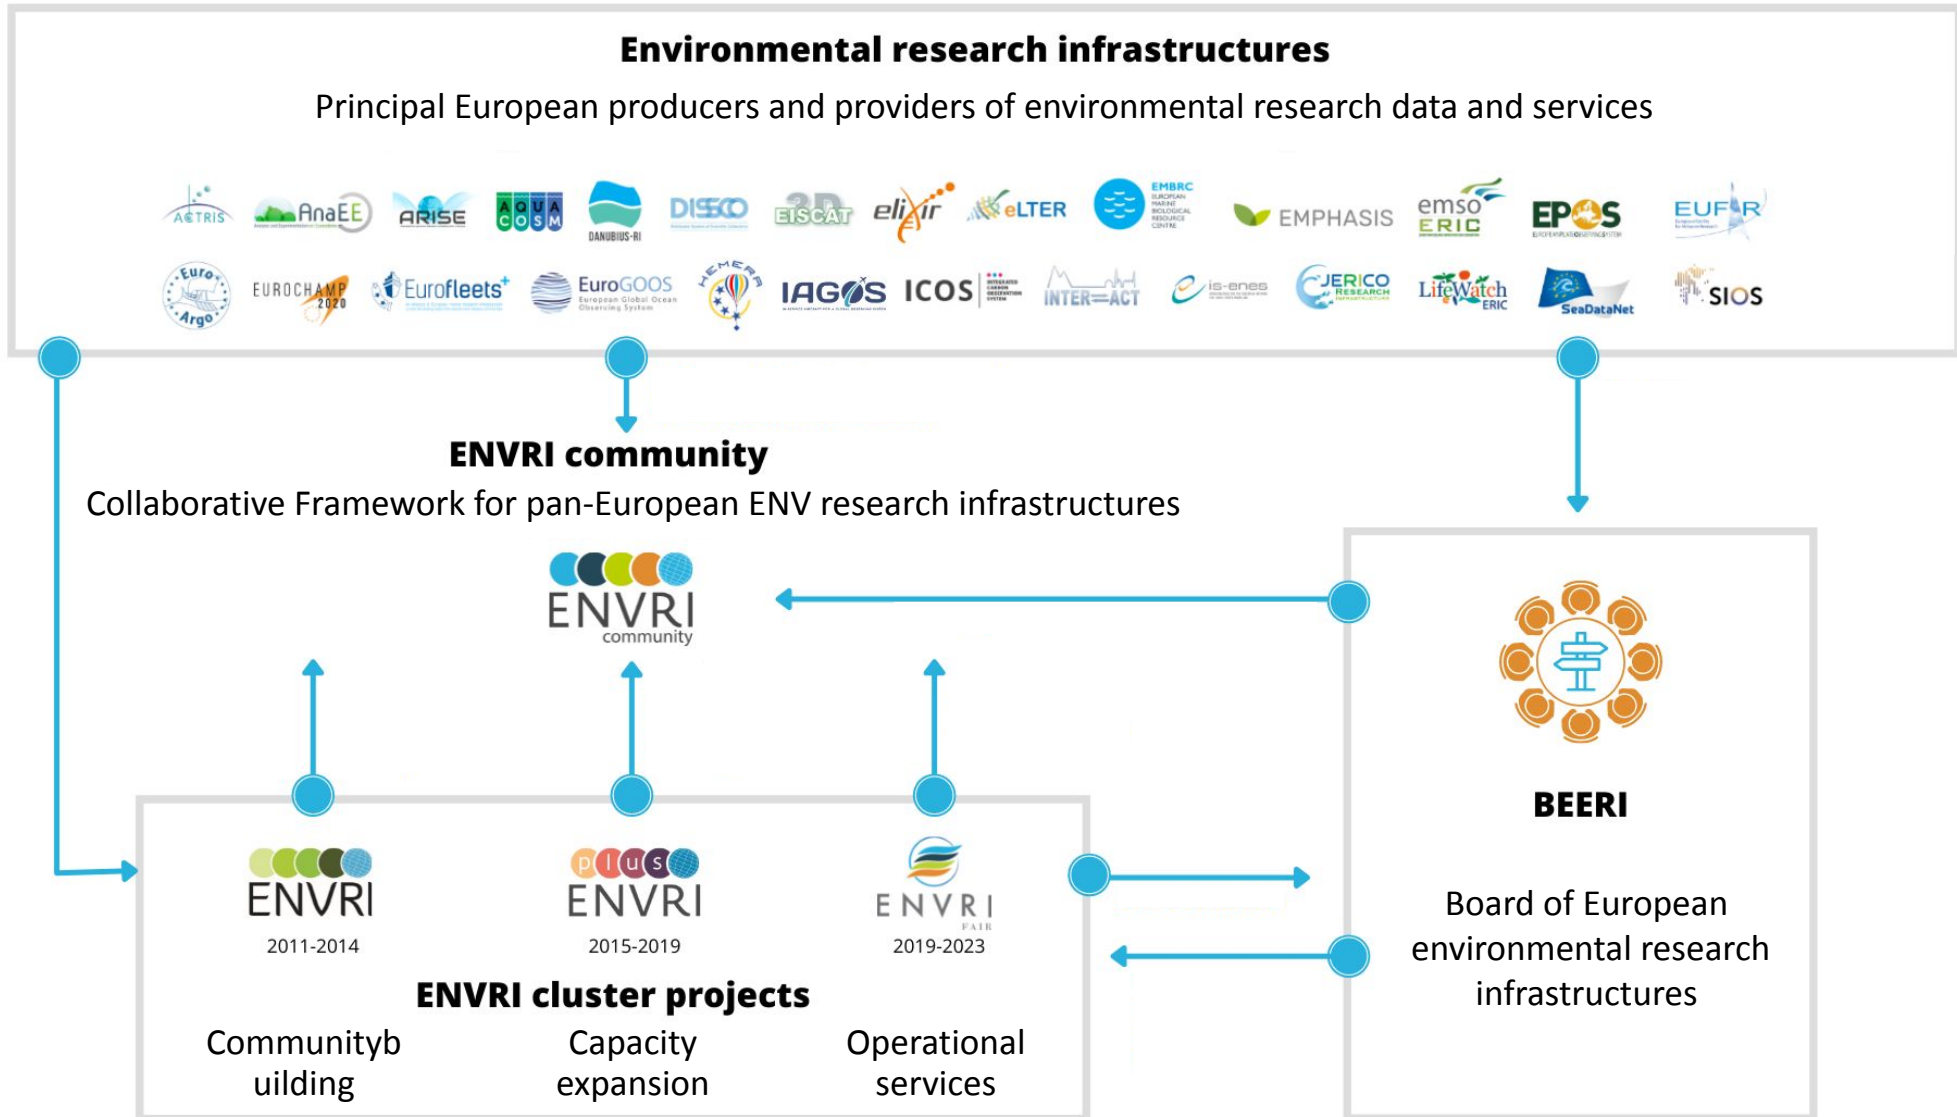

ENVRI Community

ENVRI Community

ENVRI Resources Provision

The ENV Landscape in approximate numbers

7 RIs
12 data portals
300 asset suppliers
10,000 researchers

5 RIs
12 data portals
300 asset suppliers
19,000 researchers

2 RIs
10 data portals
250 asset suppliers
10,000 researchers

5 RIs
5 data portals
4000 asset suppliers
(institutions@SeaDataNet)
20,000 researchers

ENVRI Resources Provision

User community
accessing ENVRI
via ENVRI-Hub

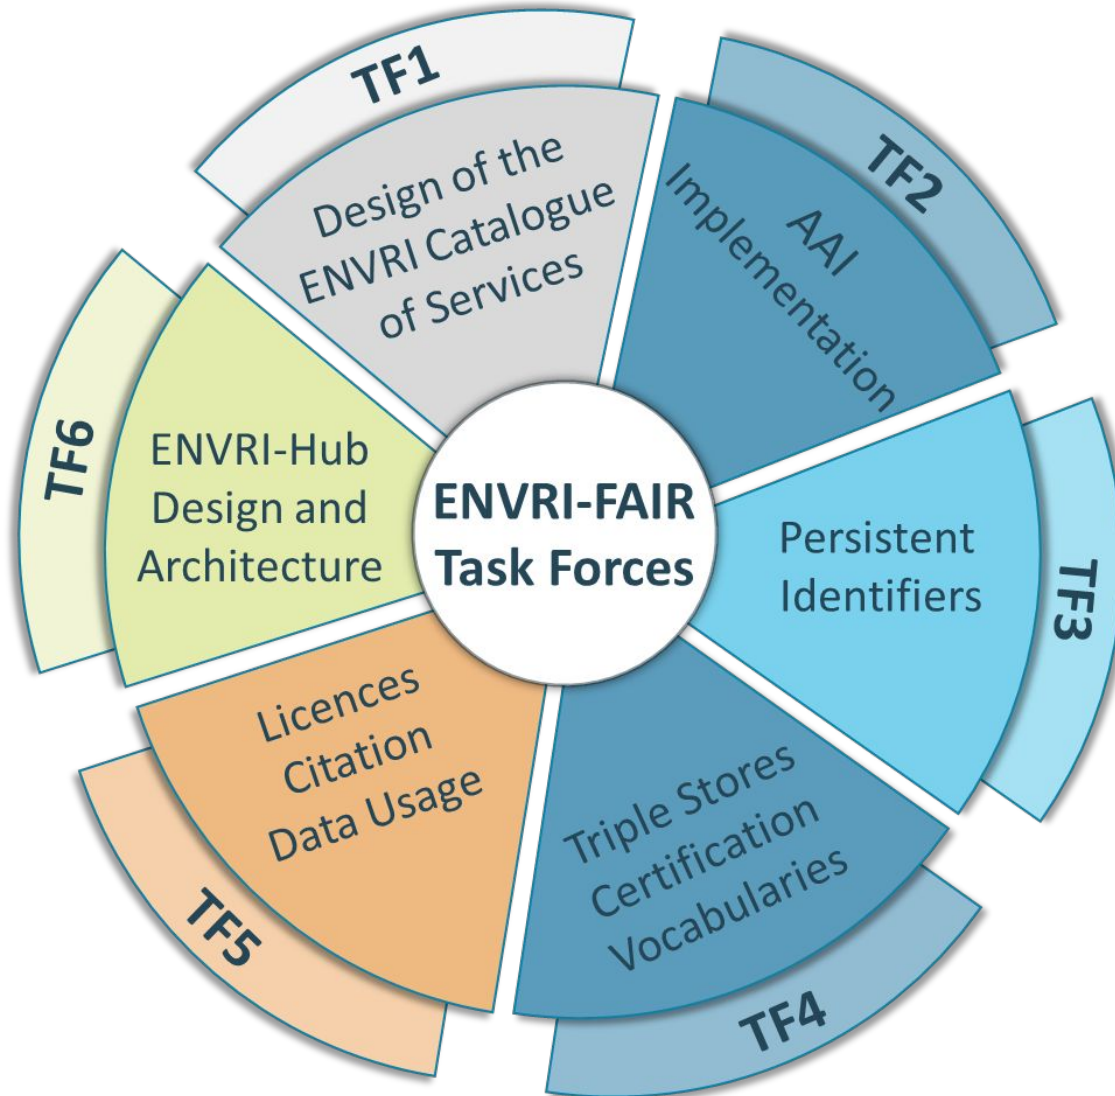

Bridging Tech Gaps by Cross-domain Task Forces

Task Forces = Thematic groups on the common development targets of the ENVRI Community

- Task Forces have developed into the power house of ENVRI-FAIR
- EPOS assumes leading roles in
 - TF1 – ENVRI Catalogue of Services
 - TF2 – AAI Implementation
 - TF6 – ENVRI-Hub, in close collaboration with FZ Juelich

ENVRI Community

Environmental research infrastructures

Principal European producers and providers of environmental research data and services

ENVIRONMENTAL RESEARCH INFRASTRUCTURES

**STUDYING THE ENVIRONMENT TODAY
TO TACKLE THE CHALLENGES OF TOMORROW
THE EARTH IS OUR LAB**
